# Why ExpressPrep Bootcamp?

To your success,

Flavio Soriano

flavio.soriano@highbridgeacademy.com

*If you're new to High Bridge, welcome. If you already know me or our Academy, welcome back!*

*Over the past three years, we've had the privilege of graduating **600+ Highbridgers**.*

*Their success stories are testaments to the **effectiveness of our approach** to Interview and Consulting Readiness.*

*However, we also listened to the feedback of those who yearned for a **lighter and faster format**.*

***ExpressPrep** is our answer, built on the cornerstone of Module 1: Immersive Case Interview Course.*

*If you later decide to delve deeper, Modules 2 and 3 can be added on-demand, allowing a seamless progression in your Consulting Prep journey.*

*In just 6 weekends, and at a more affordable tuition fee, you can learn the **essentials to fully prepare** for those crucial **Consulting Interviews**, no matter the firm.*

*If you're seeking our undivided attention and support, I invite you to [click here](#) to explore our **Full Consulting Bootcamp**.*

*For others, continue scrolling to **discover the myriad possibilities ExpressPrep unlocks** for your Consulting Interviews Prep.*

***P.S.** We can't promise we'll have another ExpressPrep class after the one in 2023, **so seize this unique opportunity and apply now!***

## TESTIMONIALS

# What our students are saying

**Kotaro T.**

University of Cambridge, UK

Rated High Bridge: ★★★★★

“A very well organized, and supportive team of professionals dedicated to adding value to you. I’ve found my experience with them **genuinely productive**, and certainly useful for my future.

The level of insight they provide at High Bridge, as well as the team’s insistent **emphasis on ensuring the knowledge they teach you actually internalizes as your skill, is phenomenal.**”

**Peter B.**

University of Edinburgh, UK

Rated High Bridge: ★★★★★

“I highly recommend High Bridge for anyone currently applying for their first job in Consulting, or indeed anyone with any interest in the sector. The course gives you a **fantastic overview of the whole application process and the tools to ace interviews and cases. Very interesting modules that are accessible at all levels**, taught by experts who have worked for MBB in the past.

**The community High Bridge fosters too is excellent;** I have met some absolutely **fantastic people** during my time here.”

Tubes Inc.		
Case question		
<ul style="list-style-type: none"><li>Our client is an EU-based supplier of tubes for global Oil &amp; Gas companies.</li><li>The client operates a factory that has been very successful since its launch 4 years ago, with strong growth.</li><li>In fact, our client has the strongest brand in the industry.</li><li>However, in the last 6 months, the order fulfillment time has increased and now it takes up to 3 months to deliver the products.</li><li>The client's customers are concerned with such a long waiting time and have informed the client that they will switch to its competitors if the delivery time issue is not resolved.</li></ul> <p>Questions for the candidate:</p> <ul style="list-style-type: none"><li>Why has the waiting period increased?</li><li>What can the client do to address the problem?</li></ul>		
Clarifying		
Category	Question	Answer
Definition	How do you define "waiting period"?	Waiting period refers to the time from the order being placed to order being delivered to the customers.
What exactly happened?	By how much has our client's waiting period changed?	Our client's waiting period has increased from an average of 1 month to 3 months since about 6 months ago.
Goal	Do we have any quantitative targets and deadlines to reach them?	
Business model	What exactly does the client do? I suppose they buy the steel and make the pipes according to the customers' specification.	
Industry	Have those delays been observed by other players as well?	

After the Clarification Questions, t...  
Show it to the candidate and ask the...

## TESTIMONIALS

# What our students are saying

**Devendra M.**

Schulich School of Business, Canada

Rated High Bridge: ★★★★★

“I joined High Bridge to help me with the consulting interview processes and understand the robust frameworks that one should use to solve different types of problems.

Surprisingly, the academy went well beyond my expectations. They helped me understand all concepts (including the financial ones) and made me practice, increasing my skills and confidence drastically. I now know exactly what to think and how to correct those as well.”

**Carlo G.**

HEC Paris, France

Rated High Bridge: ★★★★★

“The ISA is very good and is what led me to overcome doubts. I didn't want to invest much money upfront, but if High Bridge allows me to get into my target firm I'll be very happy to pay the fee.

I am very happy with the bootcamp and have been recommending it to people already. They will apply in the future.

Most of the workshop faculty were incredibly good - keep up the good work!”

**1. Why has the client's waiting period increased? What can the client do to address the problem?**

**Read:** Read the text to answer the questions.

**Answer:**

The client's waiting period has increased because the client has not yet received the necessary documents from the bank. The client should contact the bank to inquire about the status of the documents and request a faster processing time.

**2. Big Cash Group LLC**

Our client is a technology holding called Big Cash Group LLC.

They want to invest in a British Columbia (BC) real estate company. They have asked you whether it will be a good investment. Can you help them?

**1. A Cup of Tea**

Read the text to answer the questions.

The client is a technology holding called Big Cash Group LLC. They want to invest in a British Columbia (BC) real estate company. They have asked you whether it will be a good investment. Can you help them?

**1. A Cup of Tea - Suggested Answers**

**Clarifying Questions**

Question	Answer
What is the client's main concern?	The client is concerned about the investment's return.
What is the client's budget?	The client has a budget of \$100,000.
What is the client's timeline?	The client wants to see results within 6 months.
What is the client's risk tolerance?	The client is willing to take a moderate risk.

**2. Confectionery**

HIGH BRIDGE

### Casino

**Overview**

- Major companies include US-based casino operators Las Vegas Sands, MGM Resorts, Wynn Resorts, Galaxy Entertainment (Hong Kong), SDA Holdings (Hong Kong), Tabcorp (Australia), International Gaming Technology (UK), and William Hill (UK) are international.
- The global gambling industry's gross yield was more than \$435 billion in 2017 and is expected to hit \$500 billion by 2022, growing at a CAGR of approximately 4% during 2017-2021. Major casino gaming markets outside the US include Macau, Singapore, Australia, and South Korea. Revenue is expected to grow steadily as casinos continue to expand in new markets, specifically in Asia.

**Key trends**

- Cryptocurrencies will continue to dominate the gambling industry with many online platforms accepting the crypto.
- Access even in Restricted Areas of Gaming
- Land based casinos are feeling the burn from their online versions and are facing a rapid decline
- Push for Virtual Reality based casinos
- As casinos attempt to attract the younger generation, new slot machines with features found in their many video games and gaming consoles will be found.
- Placing bets via a smartwatch is now a very real thing.

**Revenues**

- Gaming is declining/Rooms & food growing

**Costs**

- CAPEX heavy (building, decoration, machine)
- FC
- Casino Staff & management
- IT system/preventing fraud
- Safety guards
- VC
- Food & drink
- Hotels staff & management
- Rooms supplies
- Entertainment fee

### Agribusiness Industry, Brazilian Soybean Market

**Overview**

- Brazil's soybean export share in the global market: 35% (83 M tons) - Biggest buyer: China (73%)
- 134 M tons Brazil total production (2020)
- 0.8 M tons Brazil total imported - Biggest seller: Paraguay (65%)
- Associations compound by individual producers are strong and have a 20% market share of soybean in Brazil
- Brazil's soybean consumption profile: ~98% (\$1 M tons) animal feed and ~2% (1 M tons) human consumption

**Key trends**

- The use of new technologies (precision agriculture) has increased the productivity of soybean plantations.
- China (Brazil's main importer) has entered into new trade agreements with Tanzania to reduce dependence on Brazilian soy. In 2020, China imported 10 M tons (CAGR19-20: 19%).
- The international uproar against deforestation has the potential to cause drastic changes in business, especially when it comes to a country the size of Brazil and its dependence on oilseeds.
- The grain industry will have a huge increase in demand in the coming years due to the population increase: production in 2029 will be 28% higher than 2020 in Brazil.
- The market for soybean is driven by the increasing demand for meat in the country.

**Revenues**

- Brazilian soybean revenues (BRL billions): 243

**Costs**

- Variable Costs represents 70% of total costs, divided into:

### Cleantech (Asia)

**Overview**

- Competition intensity: The market for cleantech is consolidated by major companies striving to maintain their position by focusing on collaborations and establishing partnerships to favor the market's growth in the next years.

**Key players:**

- USA
- Europe & Israel
- Asia (Japan, Singapore, China)

**Value chain**

- Stakeholders

**Suppliers**

- Insurance policies: mainly sold via insurance brokers/agents, and they are the key suppliers.
- Key suppliers: Independent Agents - They sell policies of many insurance companies. Captive Agents - They work for one specific insurance company. Order size: Mostly single while purchased by individual. Bulk when purchased by a company.

### Carbon Capture Utilization & Storage (core)

**Overview**

- CCUS is an integral solution to reducing global warming. Most common way to capture carbon is using solvents.
- Carbon Capture: Direct from the atmosphere, post-combustion from factories, Ocean by Algae/direct seawater removal or land biochar.
- Utilization: Can create fuel, chemicals, cement, aggregate, polymers or plastics.
- Storage: Can be stored in underground caverns or depleted oil/gas reservoirs

**Key trends**

- Currently 0.05 Giga ton CO2 is being captured per year and expected to reach 0.5 Giga ton per year by 2030
- Net zero is not enough. Negative emissions such as removing CO2 already in the air and oceans is required which increases the demand of CCUS
- Climate scientists estimate that 10 Giga ton of CO2 need to be removed per year by 2050 in order to reach the Paris Agreement goal of limiting the earth's temperature rise to no more than 1.5 degree Celsius of pre-industrial levels

**Revenues**

- Turnkey post combustion solutions/DAC equipment/scrubbers
- Utilization of CO2 into useful products
- Pipelines/Vessels for transporting CO2
- Vessel design/Cavern prep for CO2 storage
- Equipment for CO2 injection

**Costs**

- Post-combustion & DAC is CAPEX intensive
- Post-combustion is \$100/Ton
- Direct Air Capture is \$500/Ton

**Value chain**

- Capture/Liquefaction is Emerging: Focus is on innovation by high R&D spend to make it viable
- Transportation is Mature: Pipeline is CAPEX heavy while vessel is CAPEX low but has higher operating costs
- Storage is Mature: Cost is high so customer would rather utilize/sell. Utilization is Emerging: Growth: Firms are finding new ways to utilize carbon in their products. Use carbon to grow cash

**CCUS VALUE CHAIN**
